Dear Downtown Baltimore Zoning Committee Members,

The Baltimore City Department of Planning has set five public meetings to discuss and get input on the "Initial Recommendations for the Zoning Code Rewrite". This is another opportunity for downtown (and non-downtown) stakeholders to make sure that their thoughts and concerns are voiced and considered in the final rewrite of the Code. In addition, for interested parties, workshops on Form-Based Zoning will be held throughout the month of March. For your information, I have attached the latest Transform Baltimore Newsletter, with information on the process to date, and details on the public meetings.
